## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendments filed 04/18/2006 and 08/04/2006 are noted.
2. Claims 8-12 are pending.

### ***Response to Arguments***

3. Applicant's arguments, see the remarks, filed 04/18/2006, with respect to the objections and rejections set-forth in the prior Office action, have been fully considered and are persuasive. Specifically, Ikada fails to teach irradiating both the substrate and the hydrophilic polymer to induce cross-linking of the polymer. The objections and rejection are withdrawn.

### ***Allowable Subject Matter***

4. Claims 8-12 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor suggests the disposition of a hydrophilic polymer into the passageways of a porous substrate followed by irradiation of both the substrate and the polymer to form a hydrogel coating that swells upon contact with water.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
